**I have been providing education for people and their dogs in El Dorado County since 1976. I began teaching for the City of Placerville Parks and Recreation Department in 1976 and retired from that after about 25 years to do more private training. I use reward based training and studied extensively with Dr. Ian Dunbar, PhD, BVETMED MRCVS, who brought reward based training to the mainstream in this country and around the world.**

**With my own dogs, I am active in training and competing in dog agility and enjoy tracking training as well as general obedience. I have titled dogs in obedience, tracking and agility. I also volunteer as a project leader with the local 4H dog agility project and enjoy that very much.**
